Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Detailed Action

The amendment filed on 12-27-2005 has been entered.

Objection to the Specification

The disclosure is objected to because of the following informality: On page 1, line 6, after "filed October 26, 2000", --now U.S. Patent No. 6,823,952-- should be added.

Appropriate correction is required.

Claims Rejection - 35 U.S.C. 112, first paragraph (new matter)

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-4 and 12-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The claimed "heating" step has no support from the specification as originally filed.

Claims Rejection - 35 U.S.C. 112, second paragraph

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-4 and 12-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(1) In claim 1, lines 17-18, it is not understood how the mounting pad is formed from the inserted displacement.

(2) In claim 1, line 19, it is not clear how the relief groove is formed.

(3) In claim 1, lines 19-20, "positioned under the diamond table of the cutting element when the cutting element is mounted on the pad" is confusing. It is not clear what this claim language encompasses, and how this claim limitation defines any method step of forming a drill bit body.

(4) In claim 1, lines 20-26 are vague and indefinite. Exactly what method steps are defined by the "wherein" clauses?

(5) Claims 2-4 and 13-14 are vague and indefinite. It is not clear what method steps of forming a drill bit body are being claimed therein.

(6) In claim 12, line 15, it is not clear how the mounting pad is formed.

(7) In claim 12, line 17, it is not understood how the relief groove is formed.

(8) In claim 12, lines 17-18, "positioned under the diamond table of the cutting element when the cutting element is mounted on the pad" is confusing. It is not clear

what this claim language encompasses, and how this claim limitation defines any method step of forming a drill bit body.

(9) In claim 12, lines 19-20 are vague and indefinite. Exactly what method step is defined by the "wherein" clause?

Prior Art Citations

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Barr, Tibbitts et al., Weaver, Chow et al., Oldham et al. and Azar are cited as art of interest.

Remarks

Applicant's arguments with respect to claims 1-4 and 12-14 have been considered but are moot in view of the new ground(s) of rejection.
